ABOUT EDUMETRICS

Modern Outcome-Based Education (OBE) Assessment

EduMetrics simplifies the entire academic assessment process through an automated, data-driven workflow. Easily bridge the gap between student learning outcomes and accreditation compliance.

01	Complete OBE Alignment Connect learning outcomes and assessment evidence across the academic process.
02	Faculty-Friendly Evaluation Support faster evaluation through clear, standardized assessment workflows.
03	Automated Evidence Logging Keep assessment evidence organized for institutional audits and accreditation.

CORE ASSESSMENT WORKFLOW

Map. Assess. Measure. Improve.

01	MAP - Curriculum Alignment Align Course Learning Outcomes (CLO) directly with Program Outcomes (PLO). Instantly spot coverage gaps and redundancies across syllabi.
02	ASSESS - Evidence Gathering Capture direct evidence using standardized rubrics, exams, and observations. Streamline faculty scoring with intuitive online evaluation forms.
03	MEASURE - Data Analytics Generate real-time performance analytics for students, courses, and programs. Export compliance-ready reports for internal audits and accrediting bodies.
04	IMPROVE - Continuous Quality Improvement Turn performance data into actionable curriculum adjustments. Track department-level intervention plans semester over semester.

WHY CHOOSE EDUMETRICS?

Built for a clearer and more reliable assessment process

01

Centralized Database

Eliminate scattered spreadsheets and lost assessment files.

02

Real-Time Dashboards

Get instant visual insights into program performance.

03

Accreditation Readiness

Keep evaluation evidence organized and accessible at all times.

04

Streamlined Collaboration

Keep faculty, department heads, and academic leaders aligned through one centralized assessment workflow.

TAKE THE NEXT STEP

Elevate your institution's assessment workflow today.
